

AVANT COLLECTION

The origin of hexagons goes back to Muslim architecture, specifically to the Mudejar style that developed between the 12th and 16th centuries.

The aesthetic resources used in the history of architecture are those in which creativity and technique come together to give rise to pieces of a functional nature.

The research for innovation is a process that requires constant exploration. This is why Monopole has patented this special hexagonal shape, which brings the Avant series into the 21st century, but with an avant-garde touch.

The hexagon, also present in nature, transmits a sensation of lightness, which is what we want the viewer to feel when they see this innovative piece.
