M-TECH - a new level of Digital Printing by Monopole.

M-TECH is a modern technology that makes it possible to create unique textures and effects with precise alignment between the tile's design and its surface relief. One of the standout features is the use of glossy details on a matte surface, which adds both visual interest and a pleasant touch.

- What M-TECH offers:
- Realistic and expressive textures.
 - Each tile is truly unique.
 - A perfect match of design and 3D relief for a complete, artistic look.

It's this exact match between the graphic and the relief, slightly different on every tile, that makes each piece special and visually striking.
